 Bengaluru – 560056

PROFESSIONAL SUMMARY

Motivated and dedicated student of Computer Science Engineering with expertise in the MERN stack and Java programming. Skilled in various programming and tools, with a strong interest in creating innovative solutions as well as a deep enthusiasm for web development.

EDUCATION

- **Bachelor of Engineering in Computer Science and Engineering**
Dr Ambedkar Institute of Technology Bengaluru
Expected Graduation: 2025
CGPA: 8.61
- **Pre University**
Base PU College , Bengaluru
Percentage: 85.5%(2020)
- **10th Board CBSE**
SG International Public School ,Bengaluru
Percentage: 91.6% (2018)
- Took a one-year gap in 2021 to prepare for the NEET examination.

SKILLS

- **Programming Languages:** C,C++, Java, JavaScript.
- **Core Competencies:** Data Structures and Algorithms (DSA) in Java
Object-Oriented Programming (OOP)
- **Web Development:** MERN Stack (MongoDB, Express.js, React.js, Node.js)

PROJECTS

- **Interactive Image Processing Project** : Built with Python, Tkinter, OpenCV, and PIL. The app allows users to load, edit, and apply filters to images with undo functionality.It provides an easy interface for basic image manipulation.
- **Stock Price Prediction - AI/ML Project** : Developed using Python with libraries such as NumPy, Pandas, Matplotlib, Scikit-learn, and Keras. The project involves building and training an LSTM neural network to predict stock prices based on historical data. It provides accurate stock price forecasts to aid in financial decision-making.
- **Personal Portfolio** : Created using HTML, CSS, and JavaScript. The portfolio showcases personal projects, skills, and experiences in a well-designed, interactive web layout. It serves as a professional presentation tool and enhances online visibility.
- **Latest News Portal** : Built with HTML, CSS, and JavaScript. The app fetches and displays news articles from an API, allowing users to filter news by category or search for specific topics. It provides a dynamic and interactive way to stay updated with the latest news.
- **Courier Management System** : Developed using Node.js, Express.js, MongoDB, and React. Created it to handle user registration, shipment tracking, and notifications. Streamlines logistics operations by automating courier tracking and improving delivery management efficiency.

INTERNSHIP

- **Frontend Web Development (Internship)**

Mevi Technologies LLP Bangalore, November 2023

Duration : Oct 12th 2023 - Nov 12th 2023
